

What Is This?

This map was created for planning purposes from a variety of sources. It is neither a survey nor a legal document. Information provided by other agencies should be verified with them where appropriate.

- **Stead Park is located in the Dupont Circle Historic District, in square 180. We found two brick foundations there, one at 1625 P St., at right and below, and one from a townhouse at 1613 P St. The 1928 Sanborn map shows the two buildings and the carriage house that is now used as the Rec Center.**
- **We also found a mystery structure that could be a planter base, a well, a column or statue base, or something else. Can you help us identify what this is?**

We found numerous artifacts while mapping the features at Stead Park. Artifacts from the townhouse are shown at the left, fragments of: top, a porcelain saucer with a blue Oriental pattern; center, a glass bottle neck, a vase, a ceramic doorknob, and two ceramic vessels; and bottom, an enameled iron chamber pot with a large hole in the side.
